

TB0023 Mk6-SB330 Standard Cable Remote Change

Date: 09/11/01

As from serial number **SB6829**, STEELBRO MK6 / SB 33 Sidelifters standard cable remote has changed in the wiring system and in parts required to build.

There has been a diode and new switch blocks added to the system so please refer to the drawing for any parts required.

Old cable remote parts and system uses drawing A2850009.

New cable remote parts and system uses drawing EL-21629.

Both old and new systems are interchangeable.

Parts for both units are not interchangeable, different switchgear.

For units with optional extras e.g. Off Side Legs and Top Lift Frame refer to the job file for details.
