

TB0047 Ordering Kubota V2203 Parts

Date: 2 Oct 2006	Author: Aaron Penberth	Distribution: All	Cross Ref: Kubota Parts Manual
------------------	------------------------	-------------------	--------------------------------

When ordering Kubota parts, please ensure you quote the whole model number for the V2203 we fit to STEELBRO sidelifers. This information is available in the Kubota Parts Manual provided in the unit's manual.

This is V2203-E2B-SBS.NZ1 (Printed on the cover of the Kubota Parts Manual)

Without this information, Kubota cannot accurately identify the type of V2203 Engine and this can cause confusion.

Of course you also need to provide the whole part number.

If you require a new copy of the Kubota Parts manual, please email maryanne.cathro@steelbro.com.
