

TB0051 Change of Wear pad used on SB361/401 Bending Leg

Date: 30 Mar 07	Author: Ross Brewitt		Cross Ref:
-----------------	----------------------	--	------------

Description:

Due to change in supplier kit for hydraulic hosing, the 361/401 Bending leg stabiliser will now be fitted with Duo hose, 550-4-4 instead of Quad hose. As a result of this, item HC35821 Pad Rub Quad-Hose has been replaced by HC-37155 Pad Rub 2x Duo Hose.

Models and Markets:

SB361/401 bending leg machines from serial number SB7853 forward.

Spare Parts:

HC37155 Pad Wear 2x Duo Hose replaces HC-35821 Pad Rub Quad-Hose. The hose itself is provided as part of the supplier kit so does not have a separate part number. the kit has been updated in Syteline.

Backward Compatibility:

The new wear pad can be used with the quad hose on existing bending leg units.

Benefits and Advantages to Change:

Duo hose can now be used on all machines
