Category:

Sidelifter power packs.

Models and Markets:

All models and markets.

Issue:

There are two different styles of lockable fuel caps on the Steelbro combined fuel/hydraulic oil tanks:

- Cap A (HC-38742) only fits onto older tanks
- Cap B (HC-32649) fits onto any of the Steelbro combined fuel/hydraulic oil tanks

The tanks with Cap A were the original tanks used by Steelbro. The tanks with Cap B were introduced around June 2003, but both versions of fuel caps were fitted in the following 3 years. Since June 2006 only tanks with Cap B have been supplied.

Cap A (HC-38742)

Cap B (HC-32649)
