

Colour Change in Angle Sensor Leads

Description

The new angle sensor leads have a black outer sheathing and a GREY wire instead of a GN/YE.

All other colours are unchanged.

The old cable is no longer available.

Models and Markets

All Smartlift units.

Connection Details

	Old	New
Outer sheath colour	Grey	Black
Plug Connections.		
Pin 1	Brown	Brown
Pin 2	White	White
Pin 3	Blue	Blue
Pin 4	Black	Black
Pin 5	Green/Yellow	Grey

Backward Compatibility

The leads are fully backwards compatible.

The part numbers are still the same.

Advantages

The new cable is a high spec and has greater resistance to oils.
